Governor Russell is in line for

the worst thing about jazz and

Some fellows never break an en-

agement, but quite often an en-

ment breaks them.

No bug worries the farmers of this

great nation half as much as the

humbly.

"The Eyes of the World" are

turned from California to Missis-

ippi.

They can say that the cost of liv-

ing is changing, but to us it still

costs all that we have.

Some fellows contend that prohibi-

tion is only a joke, but a lot of

other fellows are proving that it is

a business.

What has become of the old-fash-

ioned man who was always saying

to his neighbors in Bay St. Louis

that "it ain't the money, it's the

principle of the thing."

Governor Russell is putting up an

awful howl about "political enemies"

and all that he wishes is "fair play."

No one will deny the Governor fair

play.

Whether guilty or not guilty, Gov.

Russell's attitude just now reminds

one of the title of the famous car-

toon, "When a Feller Needs a

Friend."

The bill introduced in the house

by Representative Fleming, of Han-

cock, giving a lien on animals for

pasture rent, was defeated. The

measure was strongly opposed by

the live stock interests, who con-

tended that it would be a death blow

to that industry.

Among the bills introduced in the

last few days by Representative

Fleming of Hancock were authorizing

Hancock County to pay Miss

AUTOMOBILE PRICES.

Bay St. Louis people have been listening with quickened ear recently to the many announcements of declines in prices of autos. For the auto has become a necessary part of business these days, and even though many do not own one nevertheless recognize that they cut quite a figure in everyday life. The whole business of life and a large part of pleasure is pretty closely linked with the automobile, and the prices, therefore, become fundamental and of general interest. We have to have the cars and their cost has a bearing on the things we eat and wear, because they have come to be classed as public carriers, serving their purpose as well as the railroad serves theirs, and tying right in with the transportation of freight of every description. The announcement of cuts by almost every manufacturer of autos is very good news for everybody, because it means getting down to new standards and setting price scales which will have a bearing on other markets. So whether the average man is interested directly in the purchase of an auto or not, he is justified in taking an interest in every announcement of a cut in the price of them.

MUNICIPAL ELECTION, NEXT SATURDAY.

On Saturday, next, February 18th, the qualified voters of the municipality of Bay St. Louis will cast their ballot for their choice of the men whom they wish for the following two years from the first Saturday in April to conduct their public affairs.

The campaign has been unusually quiet. And for this there is a reason. It is very apparent that the majority of citizens are well satisfied with the administration. The men in office have as a rule been serving for more than one term. This in itself is a recommendation. They have given satisfaction. Through their experience they are better qualified to serve, since their tenure of the respective offices have been so fruitful in results it is logical their service be retained and continued.

Someone has asked, What are the issues of this campaign? There are none. The men have been on their jobs, giving the public the very best they have to give. But there has been a very lame effort to create an issue—one at least, in the absence of any. And that is the "outs" wish to get in. This is the subject matter in its last analysis. They have made a case, truly predicated on the "outs" versus the "ins." This is as old as the world itself. It is a part of human nature—not our better side. Some weeks since The Echo took occasion to review the administration so ably and admirably headed by Mayor R. W. Webb. It was an honest inventory of the mayor's work in a general way. There was much he did, so there was much to tell.

Mayor Webb practically took the reigns of the city from a chaotic condition. He has brought it to a point where the record shows much has been accomplished. The city is not only out of debt, but in fine financial condition. When we say out of debt, no reference nor has there any been made to the effect that included the bond issues. This is separate and is not to be considered as a current debt. The city bond issues have not been to wipe away old indebtedness or to pay bills, but for physical improvements that exist.

The administration, headed by Mayor Webb, has been rich in accomplishment. Its efforts has borne good fruit, and it is significant to note that we are in the midst of many improvements begun by the present administration. There is no reason for a change. None exists. It is squarely as has been stated above, the "outs" wish to get in. The Echo feels satisfied that the bulk of voters will cast their vote next Saturday for Mayor R. W. Webb and to retain the constructive, intelligent, and able administration which is fast putting Bay St. Louis in that first place to which it belongs.

CITY ECHOES.

—Mr. J. N. Wisner wishes to announce that his premises will be thrown open all day tomorrow—Sunday—to the public. You are invited by this notice to visit the place and the wonderful gardens and grounds. Come right in, without knocking, says Mr. Wisner, and go out the same way. The place is yours to-morrow. No questions asked.

—Mrs. R. W. Sistrunk and children, Ann and Joseph, have returned from Brooksville, Florida, where they spent the past two months with Mrs. Sistrunk's parents. Their return is warmly welcomed by the many friends and acquaintances.

—The membership committee of the Bay-Waveland Yacht and Athletic Club held two meetings during the week, and it is interesting to note splendid progress is in evidence. The Club is forging ahead and the wide and positive interest manifested on every side is very significant as to the Club's immediate and future success. There are no drones; every member is a hustler. No committees are carrying dead wood.

—The handsome Leichte home, at Front and Julia streets, at Cedar Point, was sold this week for a cash consideration of \$9,000.00 to Prof. Cox, head of the department of botany at Tulane University, who will take Bay St. Louis his permanent home.

—Prof. Cox made this final selection after he had visited different points along the Coast and viewed no less than fourteen properties, so we are informed. They have already taken active possession of the place and welcomed to Bay St. Louis.

—That Bay St. Louis and Clermont Harbor will be connected with a direct automobile road is now assured. Thanks to the public spiritedness of the Board of Supervisors, Al Garcia of Clermont, was awarded the work of building the connecting parts of the road for the amount of his bid, \$2900, contract to be let on his giving bond in the amount of his bid.

—The present road from Bay to Clermont Harbor is entirely in a round about way, making the journey long and tedious, and discouraging to travel. The road will extend along the L. & N. R. tracks all the way and traffic between both points will increase manifold.

—A new pier for the Bay St. Louis public ferry is now only a question of time. The Board of Supervisors in regular session this week let the contract for the building to W. W. Hampton, of Gulfport, for a consideration of \$4,940, the pier to be located on the property of the deMontuville estate, adjoining the Echo Bldg. All formalities incident to the transaction have been entered into and only the arrival of material awaits.

—Miss Lillian Ladner, daughter of Mr. and Mrs. Alcide Ladner, residing in Keller street, was taken to Gulfport Wednesday morning, accompanied by her father and sister, Miss Sadie, at which place she entered the King's Daughter's Hospital, and was operated on for appendicitis. Dr. Parker, the well-known surgeon, successfully performed the operation and the patient is doing very well. This will be good news to the many friends of the family that the young lady is rallying so rapidly and well from the ordeal. Miss Lillian Ladner is one of the valuable attachées of the local office of the Cumberland Company and her services are hardly indispensable. For nine years she has been actively employed with the local company and her record of efficiency is excellent.

Athletics.

During the past week, the basketball teams of Old S. S. C. enjoyed three victories out of four games. Spring Hill, Hibernia Bank and St. Aloysius 125lb falling under the Rockchaws prongs. Having won the first game over Spring Hill Friday night by a score of 14-10, the Varsity Team tried to repeat the game Saturday night but fell before the Hillians in a fast game, which gave the spectators all the excitement they looked for. At the final whistle the score was 17-12 in their favor. At the end of this week the Varsity team will journey to Spring Hill to try their luck on their court and we sincerely hope they will bring home the bacon to the waiting boys at Stanislaus.

Sunday afternoon two more tight games were played on the local court. The 125lb defeated the St. Aloysius 125lb in a hard fought contest. At the beginning of the game it looked as if our boys were going to be defeated, but when Mejia and Fanny Martin got to work, it spelled goodnight to the visitors. The score of the game was 18-14, but by right it should have been some place up in the 20's.

After the spectators and all the backers the College has, had enjoyed this game, the new teams came on the floor of the battle, to find out which was the better in shooting, passing and regular sportmanship. Such was the game between the Hillians Bank team, Champions of the Bankers League of New Orleans, and the still undefeated S. S. C. Reserves. It proved a thriller and they even had to add five extra minutes to see who was the better. When the final whistle blew the Reserves had piled up 29 points to the 24 of their opponents. This it shows that the Reserves are still undefeated and have a clean name in sportmanship like all the other teams of the College.

Raspberry Notes.

All the good looking boys in the College are receiving Valentines from the Town Vamps. Kuebel got one from Eagle Beak. "Red" Isbell received one from Moon Face, Tex., and Mr. Walt from an unknown town Vamp. Sam Cerniglia from the prettiest girl in Bay St. Louis and "Nature" Delaune from a big question mark. It sure is hard to be in love and still they all say the same thing: "I don't know what it is that makes the girls fall for me."

Let us all bow down to the King of the Hump Back Men, i. e., Jake Hassinger for getting the premium for Spanish after being in the same class for four years, some good work Jake, you might get another one in five years from now.

BEAUTIFUL AFFAIR IN HONOR

OF MISS SUSIE BRIGGS

BRIDE-ELECT.

Linen Shower at Home of Mrs. E. C. Abraham and Mrs. Power Wednesday Afternoon—Large Attendance at Interesting Event.

Mrs. E. C. Abraham and daughter, Mrs. Power, entertained very charmingly Wednesday afternoon at their home on the beach front. The occasion was a "linen shower" in compliment to Miss Susie Briggs, daughter of Mrs. Minna Williams Briggs, in Ulman avenue, and one of the most popular bride-elects in a long time, the marriage to Mr. Harold Weston, to take place in this city next week.

The spacious and inviting home was decorated in the colors of pink and white. This color motif prevailed on every side and was striking for the artistic manner in which every conceit was so effectively carried out. These colors were carried out in the ices and other refreshments.

Baskets bearing the gifts of linen were carried in by little Misses Elizabeth and Ann Edwards and Effie Graham Power, assisted in the displaying of same by Master Marshall, Misses Marshall, LeBonadio, Nelson and Fournier.

A partial list of guests follows: Mrs. Crawford, Sr., Mrs. Owen S. Crawford, Mrs. W. H. Bouslog, Mrs. C. L. Horton, Mrs. Cooney Weston, Mrs. David Weston, Mrs. John Weston, Mrs. E. S. Drake, Mrs. C. C. McDonald, Mrs. W. A. McDonald, Mrs. George R. Rea, Mrs. W. J. Harrison, Mrs. E. J. Leonard, Mrs. (Dr.) J. A. Evans, Mrs. Carl Marshall, Mrs. Donald Marshall, Mrs. R. deMontuville, Mrs. J. Edwards, Misses May Edwards, Emma Edwards, Evelyn Lacoste, V. Gex, Alice Chapman, Rita Breath, Hilda Spord, Mary McKewon, Vivian Ducatel, Wena and Ethel Gex, Jean Horton, Caro Weston, Irene Weston, Gertrude Weston, Alice Fountain, Louise Crawford.

Mrs. W. J. Harrison will entertain Monday night at a "kitchen shower" in honor of Miss Briggs, the invitation to the younger set only.

AGRICULTURAL DEVELOPMENT.

ARTICLE III—"Sweet Potatoes in Hancock County."

Especially Adapted to the Hancock County Farmer and Contributed to the columns of The Sea Coast Echo by S. F. O'Neal, County Agent.

In a previous article in this column I took occasion to say that Hancock County had no staple crop that could be marketed with any degree of certainty, and I wish to modify that statement when applied to our present system. We have a few crops that are produced on practically every farm and are staple as far as production is concerned, but there is no system of marketing followed in selling these crops. This does and will continue to keep these crops from becoming sale until some successful system of marketing is devised that will make their production comparatively safe. To successfully market any crop we must understand the trade requirements of this crop and plan our operations to meet these requirements.

It seems that sweet potatoes have almost unlimited possibilities in this section if grown so as to meet trade requirements. In studying market reports, we find that there is a gradual advance in price on sweet potatoes, in the principal markets from about February 1st until July 1st, at which date the highest point of the season is usually reached for the previous year's crop. About July 1st the new crop begins to reach the market and sells for more than the old crop until the market is fairly well supplied. This is usually from August 1st to August 20th, depending on the earliness of the crop and is followed by a rapid decrease in price until the lowest point of the season is usually reached thirty to sixty days later. This market tendency is fairly uniform from year to year, but is influenced by size of crops, financial and other conditions that influence all commodities. For this reason, the price may be high one year and low another, but the advance and decline outlined above will be fairly constant.

To meet these trade conditions, it would appear that to get good prices for the sweet potato crop it would be necessary to either grow the potatoes early enough to connect with the high market during July and August, or to hold the crop over until the market has again advanced the following spring. This is exactly what growers are doing elsewhere and what we shall do before we can make a success of the crop from a commercial standpoint. We can grow potatoes in Hancock County that will be ready to harvest in July if the right kind of effort is put into the project. It will be necessary to put plants in the field as soon as frost danger is past, and to fertilize so as to get a rapid growth as possible. The writer was in Hinds County, Miss., about July 20th of last year, and found a few farmers that had already harvested potatoes and new crop to nearby markets at exorbitant prices. These potatoes were selling and were selling the tremendously high prices. This county is two hundred miles north of us, and with the same intensive method of cultivation, and we should be able to beat the Hinds County farmer to market by at least 15 days.

The potatoes that fail to mature in time for the early market can be safely kept over until the following year if cared for in a potato curing house. These houses, if properly constructed, are successful, and are very profitable to build. Dealers also house will

be furnished by the Rural Engineering Department of Mississippi A. & M. College, or can be supplied by any county agent.

The farmers in Mississippi are overlooking, in my opinion, a big opportunity in not growing more potatoes for shipment. Arrange to market the crop through the most desirable channel such as the Truck Growers' Association, some responsible market man, or the county agent. The most desirable potato to grow is the Nancy Hall with the Porto Rico Yam probably second in desirability.

Argentine Ant-Attention Board of Mayor and Aldermen. So far as the now known, the most effective way to control the Argentine Ant is to poison the ant with a weak poison syrup solution. The State Plant Board will furnish men to do the work if the city desiring to have the work done will pay for the poison used. (See your Board of Mayor and Aldermen, get them to allow an appropriation for this work and get in touch with the Plant Board. The cost is absurdly small compared to the good accomplished.

A Saving of Considerable Magnitude. The county agents of Mississippi have pooled their orders for several thousand tons of acid phosphate, and by so doing have been able to buy at a price 20 per cent below the wholesale price that prevailed before their order was placed. This is no reason of estimating the total savings to farmers that will result from this deal as it will cause the price of this material to be lower even in counties where there is no county agent. It would probably be safe to say that this saving will represent an amount greater than the total of all salaries paid by the counties for this body of men for the year 1922.

Truck Growers' Organize for Bay St. Louis. Pascagoula, Ocean Springs and Biloxi have started truck growers' associations patterned after the one at Long Beach. Watch their progress this season, and be ready to organize one at Bay St. Louis this fall. We have the land and the farmers, why not make it unanimous?
